STROKE MEDICAL SOURCE STATEMENT

Froi	rom:										
Re:	e:(N	(Name of Patient)									
	(Se	ocial Security No.)									
	lease answer the following questions concern reatment notes, radiologist reports, laboratory	ing your patient's impairments. Attach relevant and test results as appropriate.									
1.	Frequency and length of contact:										
2.	Did your patient have a stroke?	☐ Yes ☐ No									
	If yes, type of stroke:										
3.	Other diagnoses:										
4.	Prognosis:										
5.	Identify all of your patient's symptoms:										
	□ Balance problems □ □ Poor coordination □ □ Loss of manual dexterity □ □ Weakness □ □ Slight paralysis □ □ Unstable walking □ □ Falling spells □ □ Numbness or tingling □ □ Other sensory disturbance □ □ Pain □ □ Fatigue □ □ Bladder problems □ □ Nausea □ □ Other: □	Vertigo/dizziness Headaches Difficulty remembering Confusion Depression Emotional lability Personality change Difficulty solving problems Problems with judgment Double or blurred vision Partial or complete blindness Shaking tremor Speech/communication difficulties									
6.	Clinical findings:										
7.	Does your patient have significant and persistent disorganization of motor function in two extremities resulting in sustained disturbance of gross and dexterous movement or gait and station? \[\sum_{\text{Yes}} \sum_{\text{No}} \sum_{\text{No}} \]										
	If yes, please describe the degree of interfer with the use of fingers, hands and arms:	rence with locomotion and/or interference									

8.		emotional factors contribute to the severity of your patient's symptoms and functional tations? Yes No								
9.	Ha mo	re your patient's impairments lasted or can they be expected to last at least twelve on the results and the results are the results and the results are the results and the results are the re								
10.	As a result of your patient's impairments, estimate your patient's functional limitations if your patient were placed in a <i>competitive work situation</i> :									
	a.	How many city blocks can your patient walk without rest?								
	b.	b. Please circle the hours and/or minutes that your patient can sit <i>at one time</i> , e.g., before needing to get up, etc.								
		Sit: 0 5 10 15 20 30 45 Minutes 1 2 More than 2 Hours								
	c. Please circle the hours and/or minutes that your patient can stand <i>at one time</i> , e.g., before needing to sit down, walk around, etc.									
		Stand: 0 5 10 15 20 30 45								
	d.	Please indicate how long your patient can sit and stand/walk <i>total in an 8-hour working day</i> (with normal breaks):								
		Sit Stand/walk less than 2 hours about 2 hours about 4 hours at least 6 hours								
	e.	Does your patient need a job that permits shifting positions at will from sitting, standing or walking?								
	f.	Will your patient sometimes need to take unscheduled breaks during a working day? \[\sum_{\text{Yes}} \sum_{\text{No}} \text{No} \]								
	If yes, 1) how <i>often</i> do you think this will happen?									
	2) how <i>long</i> (on average) will your patient have to rest before returning to work?									
		3) on such a break, will your patient need to ☐ lie down or ☐ sit quietly?								
	g.	With prolonged sitting, should your patient's leg(s) be elevated? ☐ Yes ☐ No								
		If yes, 1) how <i>high</i> should the leg(s) be elevated?								
		2) if your patient had a sedentary job, <i>what percentage of time</i> during an 8 hour working day should the leg(s) be elevated?								
	h.	While engaging in occasional standing/walking, must your patient use a cane or other assistive device?								

For this and other questions on this form, "rarely" means 1% to 5% of an 8-hour working day; "occasionally" means 6% to 33% of an 8-hour working day; "frequently" means 34% to 66% of an 8-hour working day.

i.	How many pounds can your patient lift and carry in a competitive work situation?											
	Less th 10 lbs. 20 lbs. 50 lbs.	an 10 lbs.	Never	Rarely	Occasionally	Frequently □ □ □ □ □						
j.	How often can your patient perform the following activities?											
k.	Twist Stoop (Crouch Climb t Climb s	Never	Rarely									
	Does your patient have significant limitations with reaching, handling or fingering? Yes No If yes, please indicate the percentage of time during an 8-hour working day that your patient can use hands/fingers/arms for the following activities:											
		HANDS: Grasp, Turn Twist Objects	F	GERS: line ulations	ARMS: Reaching In Front of Body	ARMS: Reaching Overhead						
	Right:	%		%	%	%						
	Left:	%		%	%	%						
1.	State the degree to which your patient should avoid the following:											
Extreme of Extreme half hum Wetness Fumes, or Soldering	eold neat idity lors, gases	NO RESTRICTIO		AVOID ONCENTR EXPOSU	ATED MODER	N AVOID ATE ALL URE EXPOSURE						
Dust Hazards (1	heights, etc.)											

	m.	To w	vhat de	gree	can yo	ur patio	ent tol	erate v	vork str	ess?					
			•			"low s ate stre			work		-			ss work ess work	
		Please explain the reasons for your conclusion:													
	n. How much is your patient likely to be "off task"? That is, what percentage of workday would your patient's symptoms likely be severe enough to interfere value attention and concentration needed to perform even simple work tasks?									_					
			0%		5%		10%		15%		20%		25%	or more	.
	o.	Are :	your pa	atient	's impa	airmen	ts like	ly to p	roduce	"gooç	l days" Yes	and "	bad da No	ays"?	
If yes, assuming your patient was trying to work, please estimate, on the many days per month your patient is likely to be absent from work as a impairments or treatment:															
			□ Ne □ At □ At	out o	ne day wo day	per mes	onth nonth		□ Abor □ Abor □ More	at four	days	per m	onth	nth	
11.	1. Are your patient's impairments (physical impairments plus any emotional impairments) <i>reasonably consistent</i> with the symptoms and functional limitations described in this evaluation? Yes No														
	If r	no, please explain:													
12.	Please describe any other limitations (such as psychological limitations, limited vision, difficulty hearing, etc.) that would affect your patient's ability to work at a regular job on a sustained basis:									n, o on a
